- A. Clone the operating system from an image onto optical media.
- B. Use the original software media to load the operation system on every PC.
- C. Set up a central image that the PCs can load from a PXE boot.
- D. Create an image and copy it from a USB drive using an unattended answer fil

**Answer: C**

#### NEW QUESTION 3

Which of the following updates should be performed on a regular basis to ensure the OS has the latest security patches?

- A. Anti-malware updates
- B. Driver updates
- C. Windows updates
- D. Firmware updates

**Answer: C**

#### NEW QUESTION 4

Ann, a user, discovers that all of her documents will not open. The documents open properly on another computer. Which of the following tools will be the FASTEST for a technician to use to allow the documents to open?

- A. Backup
- B. Recovery Image
- C. chkdsk
- D. System Restore

**Answer: D**

#### NEW QUESTION 5

A technician needs to log into a user's computer to fix the user's corrupt local profile. Which of the following connectivity tools will allow the technician to connect to the user's computer?

- A. Remote Assistance
- B. Virtual Private Network
- C. Computer Management
- D. Remote Desktop

**Answer: D**

#### NEW QUESTION 6

A PC technician notices that the printers deployed via a new Group Policy are not showing up on the workstation. Which of the following commands should be run on the PC?

- A. extract
- B. robocopy
- C. gpupdate
- D. tasklist

**Answer: C**

#### NEW QUESTION 7

A technician is instructed to configure a new workstation to boot the OS from the network. The technician must enable which of the following FIRST?

- A. PXE
- B. WOL
- C. WiFi
- D. UPNP

**Answer: A**

#### NEW QUESTION 8

A customer with a PC has requested assistance setting up Windows 7 parental controls within the web browser. The customer would like to limit how much time a child can spend on a particular website. Which of the following tabs under Internet Options will allow the user to create those settings?

- A. Privacy
- B. Advanced
- C. Security
- D. Content

**Answer:** D

#### NEW QUESTION 9

A technician is troubleshooting a PC with multiple volumes. To verify which are active and assigned drive letters, the technician should use the LIST function of which of the following commands?

- A. extract
- B. diskpart
- C. bootrec
- D. chkdsk

**Answer:** B

#### NEW QUESTION 10

A technician is tasked with installing Windows on numerous network PCs. Which of the following is the QUICKEST method for getting a standard configuration to the PCs?

- A. Prebuilt image using PXE
- B. Single solid state/flash drive with answer file
- C. Hot swappable image drive
- D. Internal hard drive partition with the image

**Answer:** A

#### NEW QUESTION 10

An end user needs to completely re-install Windows 7 on a home computer but it did not come with any OS discs. How would a technician accomplish this?

- A. Recovery partition
- B. Primary partition
- C. System restore
- D. System refresh

**Answer:** A

#### NEW QUESTION 13

A technician is tasked with setting up a user's webmail on a tablet, phone, and laptop. The user would like the data synced to all three devices. Which of the following items can be synced to the devices via webmail? (Select THREE).

- A. Free/busy
- B. Programs
- C. Documents
- D. Calendar
- E. Favorites
- F. Social media
- G. Contacts

**Answer:** ADG

#### NEW QUESTION 16

A company that manages its own cloud, while utilizing a third-party vendor to help manage storage, is implementing which of the following infrastructure types?

- A. Hybrid
- B. Community
- C. Private
- D. Public

**Answer:** A

#### NEW QUESTION 17

A user wants to configure a smartphone to save all attachments from an Outlook.com email to a cloud-based service. Which of the following would be BEST to use to accomplish this?

- A. Google Drive
- B. iCloud
- C. One Drive
- D. FTP

**Answer:**

C

**NEW QUESTION 19**

A technician is installing Bluetooth speakers in a conference room. Which of the following will be the average operating range of the speakers?

- A. 10 feet (3 meters)
- B. 15 feet (5 meters)
- C. 30 feet (9 meters)
- D. 45 feet (14 meters)

**Answer: C**

**NEW QUESTION 23**

A technician contacts the network administrator to request a list of all static IP addresses in the building. Which of the following server roles would the technician MOST likely review to find that information?

- A. DHCP server
- B. DNS server
- C. File server
- D. Proxy server

**Answer: A**

**NEW QUESTION 27**

How would a technician install Windows OS on a MAC OS computer without using third-party software? A. Terminal

- A. Boot Disk
- B. Disk Utility
- C. Boot Camp

**Answer:**

**NEW QUESTION 31**

Which of the following features of a mobile device operates the touch screen?

- A. Gyroscope
- B. Digitizer
- C. Accelerometer
- D. Geotracking

**Answer: B**

**NEW QUESTION 34**

A user has a Windows 8.1 RT operating system and wants to add additional programs to the computer. Which of the following is available for installing more applications?

- A. Microsoft Store
- B. DVD
- C. Google Play
- D. iTunes

**Answer: A**

**NEW QUESTION 37**

Which of the following tools is used to type or paste recovery commands directly into a Linux box?

- A. Shell/terminal
- B. Backup/time machine
- C. Command/cmd
- D. Restore/snapshot

**Answer: A**

**NEW QUESTION 41**

Which of the following network hosts would MOST likely provide the services needed to allow client access to Internet web pages?

- A. File server
- B. Web server
- C. WINS server
- D. Proxy server

**Answer: D**

**NEW QUESTION 45**

An end user has reported not receiving emails sent by a specific customer. Which of the following is the MOST likely cause of this issue?

- A. The HIPS device is blocking the messages
- B. The access control list is blocking the messages
- C. The email filter has quarantined the messages
- D. The firewall is blocking the sender's email address

**Answer: C**

#### NEW QUESTION 49

The type of security threat that uses computers or other networks to accept and pass on viruses is called:

- A. phishing.
- B. botnets.
- C. logic bomb.
- D. man-in-the-middle

**Answer: B**

#### NEW QUESTION 50

Joe, a user, just downloaded a game onto his company phone. When he is not using the device, it unexpectedly dials unrecognized numbers and downloads new content. Joe is the victim of which of the following?

- A. Trojan horse
- B. Spyware
- C. Social engineering
- D. Worms

**Answer: A**

#### NEW QUESTION 54

A technician has been tasked with limiting the users who can connect to a network printer located centrally within an office environment. Which of the following tools would be the BEST to utilize to achieve this goal?

- A. VPN
- B. ACL
- C. RDP
- D. DLP

**Answer: B**

#### NEW QUESTION 59

Which of the following will help to protect an organization from further data exposure AFTER a list of user passwords has already been leaked due to policy breach? (Select TWO).

- A. Use multi-factor authentication
- B. Require strong passwords
- C. Enable file encryption
- D. Educate end users
- E. Restrict user permissions

**Answer: AD**

#### NEW QUESTION 60

A user wants to save a file into another user's directory, but the file save is denied. Which of the following is the MOST likely reason the file save cannot be completed?

- A. The user must be a member of the Users group
- B. The user requires write permissions to the folder
- C. The user requires read permission to the folder
- D. The user must be a member of the Administrators group

**Answer: B**

#### NEW QUESTION 62

Which of the following prevention methods is considered to be digital security?

- A. RFID badge
- B. Mantrap
- C. Biometrics
- D. Firewalls
- E. ID badge

**Answer: D**

#### NEW QUESTION 67

A technician is attempting to manually migrate a user's profile from one Windows PC to another. Files in the user's My Documents folder cannot be copied. Some files in question have green letters in the filenames. Which of the following file systems is causing this to occur?

- A. exFAT
- B. COMPRESSED
- C. EFS
- D. NTFS

**Answer: C**

#### NEW QUESTION 68

Ann, an executive, reports that she received a call from someone asking for information about her email account. Which of the following type of potential security threats does this scenario describe?

- A. Social engineering
- B. Spoofing
- C. Zero-day
- D. Man-in-the-middle

**Answer: A**

#### NEW QUESTION 72

A Windows workstation is suspected of having malicious software that created an infected start-up item or service. Which of the following tools would a technician use to test this theory?

- A. chkdsk
- B. msconfig
- C. dxdiag
- D. ipconfig

**Answer: B**

#### NEW QUESTION 77

Joe, a user, states he is unable to use his Android phone after updating the OS. Joe is in a hurry and would like a quick solution that would most likely fix the issue. Which of the following methods can the technician use?

- A. Initiate a factory reset
- B. Perform a hard reset
- C. Remove the MicroSD card
- D. Rollback the OS update

**Answer: B**

#### NEW QUESTION 82

A user reports browsing the Internet is slow and an icon with a picture of a person with a headset keeps asking them to "click here for help." The user has clicked on the icon to try to resolve the slowness but all that happens is the computer redirects them to a website to purchase software. Which of the following should be performed FIRST to resolve the issue?

- A. Create a restore point
- B. Run O/S updates
- C. Train the user of malicious software
- D. Identify the type of malware

**Answer: D**

#### NEW QUESTION 86

A user reports unexpected icons appearing on the desktop. The technician identifies that the symptoms point to a malware infection. Which of the following procedures would be performed NEXT?

- A. Quarantine infected system
- B. Schedule scans and run updates
- C. Report the issue to the information security officer
- D. Disable System Restore (in Windows)
- E. Educate end user

**Answer: A**

#### NEW QUESTION 91

A user updates the video driver on the computer and it requests a restart after installation. The computer never gets past the loading Windows page without rebooting. Which of the following should the technician use to resolve this issue without losing any vital files or programs?

- A. Emergency Repair Disk
- B. Restore from OEM image
- C. System Recovery
- D. Restore from backup

**Answer: C**

#### NEW QUESTION 96

A customer has recently installed several applications on a Windows 7 workstation and is now experiencing slow system performance and spontaneous restarts. After removing some of the recently installed applications, the issue persists. Which of the following tools could the technician use to troubleshoot the problem while preventing data loss?

- A. Factory restore
- B. SecureBoot
- C. msconfig
- D. diskpart

**Answer: C**

#### NEW QUESTION 100

Ann, a user, states that after installing an update on her iPhone, the WiFi starts to malfunction. The WiFi icon is displaying that it has connectivity but she is still unable to browse. Which of the following could be the issue?

- A. PRAM needs to be reset
- B. iCloud is corrupted
- C. The router needs to be rebooted
- D. The upgrade needs to be uninstalled

**Answer: A**

#### NEW QUESTION 103

A user is having issues with a Windows computer. Upon loading the operating system, several messages appear referring to a DLL file that cannot be found. Which of the following would be the BEST course of action for the technician to perform NEXT?

- A. Copy the DLL file from a working PC and use the regsvr32 command to load the file
- B. Run the Windows Update utility to manually reinstall the DLL file
- C. Run the defrag utility to correct any fragmentation that may have damaged the file
- D. Research the DLL file to identify the application it corresponds to before continuing

**Answer: D**

#### NEW QUESTION 106

A user, Ann, receives a phone call from the company's mail administrator who indicates her email account has been disabled due to high volumes of emails being sent in a very short period of time. Which of the following types of attack has the user experienced?

- A. Virus infection
- B. Man-in-the-middle attack
- C. Phishing attack
- D. Malware infection

**Answer: A**

#### NEW QUESTION 111

Joe, an end-user, reports that the PC he uses periodically logs off his user account and displays a message that updates are being installed. Which of the following is the MOST likely cause of this issue?

- A. Time of day restrictions are enabled on the machine
- B. Scheduled antivirus scans and updates are enabled on the machine
- C. Remote desktop is enabled and an administrator has logged into the machine
- D. Automatic Windows Update is enabled on the machine

**Answer: D**

#### NEW QUESTION 115

Which of the following is the BEST license type to comply with end user licensing agreement (EULA) terms for commercial software used by multiple users in a corporate environment?

- A. Commercial license
- B. Enterprise license
- C. Seat license
- D. Open source license

**Answer: B**

#### NEW QUESTION 117

A customer calls the help desk to report an issue. The customer suggests that the problem is hardware related, but the technician knows from the description that this is not the case. Which of the following is the BEST course of action for the technician?

- A. Follow the customer's prescribed course of action.
- B. Convince the customer to take a better course of action to resolve the issue.
- C. Explain why the customer's prescribed course of action is incorrect.
- D. Acknowledge the customer's input, but follow another course of action.

Answer: D

**Answer: D**

**NEW QUESTION 148**

A company is concerned about users tailgating into restricted areas. In order to prevent unauthorized users from following others, which of the following should be implemented?

- A. Biometric locks
- B. CCTV
- C. Mantraps
- D. Badge readers

**Answer: C**

**NEW QUESTION 150**

An end user calls the company's IT service desk to report an inability to open encrypted emails on a mobile device. Which of the following BEST represents a possible cause?

- A. A valid certificate suitable for S/MIME is not installed.
- B. Emails received by the user lack suitable digital signatures.
- C. SSL/TLS certificates stored on the device are expired.
- D. The sender did not have the addressee's public certificat

**Answer: A**

**NEW QUESTION 155**

The system administrator is tasked with installing Windows to 100 computers over the network. The systems administrator needs to remove system-specific identifiers. Which of the following would the system administrator use to accomplish this?

- A. Windows Deployment Services
- B. Remote Installation Services
- C. System Preparation Tool
- D. Unattended installation

**Answer: C**

**NEW QUESTION 158**

A technician is tasked with analyzing computer settings managed by Microsoft Group Policy configuration. The technician wants to print a report to an HTML file for offline review. Which of the following Windows command line tools would allow the technician to accomplish this task?

- A. gpedit.msc
- B. gpupdate
- C. gpresult
- D. gpmmc.msc

**Answer: C**

**NEW QUESTION 162**

A user frequently travels with a Windows laptop and connects to several wireless networks. At a new location, the user reports that the locally shared printers are not available on the wireless connection. Which of the following would be causing the issue?

- A. The location profile is set to public.

- B. Workgroup is disabled.
- C. The proxy settings are misconfigured.
- D. Remote assistance is not configure

**Answer:** A

#### NEW QUESTION 167

Which of the following file formats does Android use for application installation?

- A. .ipa
- B. .api
- C. .apk
- D. .exe
- E. .sdk

**Answer:** C

#### NEW QUESTION 171

Which of the following is the FASTEST way for a user to synchronize data between an iPhone and a work PC?

- A. Transfer data via WiFi Direct to the user's laptop.
- B. Use Bluetooth to share data from the phone.
- C. Connect the iPhone's USB cable and use iTunes.
- D. Copy the data from the phone to a MicroSD card

**Answer:** C

#### NEW QUESTION 172

A network administrator notices a new WiFi connection has appeared as a wireless network choice and is always at the top of the list. As a result, users are constantly trying to connect to the wrong network. Which of the following should the administrator do to correct this issue?

- A. Adjust the wireless router antennas to 90 degrees clockwise from the current position.

- A. FireWire External Hard Drive
- B. PXE-based Network Installation
- C. USB 3.0 Flash Drive
- D. DVD-ROM

**Answer:** C

#### NEW QUESTION 236

Which of the following is a physical device used to prevent tailgating into a facility?

- A. Privacy filter
- B. ID badge
- C. Retinal scanner
- D. Mantrap

**Answer:** D

#### NEW QUESTION 240

A technician is installing a new router at a computer that wants to protect the configuration of the DMZ. To prevent unauthorized remote access, which of the following should the technician perform when installing a new wireless router?

- A. Secure the room the router is stored in
- B. Change the default password on the router.
- C. Disable SSID broadcasting
- D. Ensure that all cables to the router are shielded

**Answer:**

B

**NEW QUESTION 245**

Ann, an end user, receives a call from someone claiming to be from the help desk and asking for her username and password to prevent her email box from being deleted immediately. Which of the following BEST describes this type of attack?

- A. Shoulder surfing
- B. Man-in-the-middle
- C. Social engineering
- D. Ransomware

**Answer: C**

**NEW QUESTION 248**

A user needs to connect securely to the company network while working from a hotel room. Which of the following would the user need available to accomplish this?

- A. AES
- B. VPN
- C. UTM
- D. WPA2

**Answer: B**

**NEW QUESTION 253**

Which of the following Windows utilities would MOST likely be used to identify system errors?

- A. System Restore
- B. Event Viewer
- C. Security Center
- D. Windows Defender

**Answer: B**

**NEW QUESTION 258**

Which of the following is a risk of implementing a BYOD policy?

- A. Introducing malware onto the network
- B. DHCP may fail due to incompatibility
- C. Different encryption technology
- D. Higher risk of phishing attacks

**Answer: A**

**NEW QUESTION 260**

After confirming BIOS support, technician has added a second video card and a new sound card to a computer's motherboard. The computer continuously restarts. This is an indication of which of the following.

- A. Incompatible sound card
- B. Insufficient power supply
- C. Insufficient memory
- D. Defective video card

**Answer: B**

**NEW QUESTION 265**

A user recently purchased a video card for gaming purposes. The user installed the appropriate drivers and validated they work using vendor-supplied test tools. However, while gaming, the speed of the case fans increases, the entire system locks up, and the user must hard boot to restart the computer. Which of the following is the MOST likely cause of this issue?

- A. Unsupported operating system
- B. Unacceptable CPU type and speed
- C. Insufficient airflow and cooling
- D. Inadequate video RAM amount

**Answer: C**

**NEW QUESTION 269**

Data on full disk encrypted drives using BitLocker is MOST secure from loss when combined with which of the following technologies?

- A. USB authentication token
- B. Filesystem access controls
- C. Trusted platform module
- D. Fingerprint reader

**Answer:**

C

**NEW QUESTION 270**

Joe, a technician, arrives onsite at a customer's home. Upon entering the home, Joe notices an unpleasant odor. In response to this, Joe pinches his nose and holds his breath. After Joe leaves, the customer reports the behavior to Joe's supervisor. The supervisor decides the issue must be addressed. Which of the following topics would the supervisor be MOST likely to cover?

- A. Maintaining good communications with the customer
- B. Maintaining good personal hygiene
- C. Avoiding being judgmental
- D. Avoid dismissing the customer's problems

**Answer: C**

**NEW QUESTION 272**

An administrator must upgrade multiple workstations with a new image being deployed using Windows Deployment Services. Which of the following client-side boot methods initiates the deployment of the new image?

- A. USB flash drive
- B. CD-ROM
- C. PXE
- D. GRUB

**Answer: C**

**NEW QUESTION 275**

A support technician is using virtualization software on a Windows 7 Enterprise PC to test Windows 8.1 Enterprise for a future deployment. When operating the Windows 8.1 VM, performing tasks in the host operating system becomes considerably slower. Which of the following options may improve performance in the host operating system? (Select TWO).

- A. Install more physical memory.
- B. Increase the size of the virtual hard drive.
- C. Install a different hypervisor.
- D. Reduce physical memory allocated to the VM.
- E. Clear temporary files in the VM.
- F. Install additional physical hard drive

**Answer: AD**

**NEW QUESTION 279**

A computer on a Windows domain has been identified as not having the most current policy. Which of the following tools would a technician run on the local machine to rectify this?

- A. gpresult
- B. msconfig
- C. ipconfig
- D. gpupdate

**Answer: D**

**NEW QUESTION 283**

A user has been granted permission to access the corporate network from a personal smartphone. Which of the following should a technician perform before configuring the phone for access?

- A. Check the phone for unauthorized root access
- B. Disable the phone's Bluetooth chip
- C. Erase all personal data from the phone
- D. Check the phone for location tracking

**Answer: A**

**NEW QUESTION 287**

A user calls the helpdesk reporting that when accessing the company portal, it redirects to an unfamiliar website. Which of the following steps would the technician take to resolve this issue using best practices?

- A. Identify symptoms, quarantine infected system, and create restore point.
- B. Quarantine infected system, identify symptoms, and create restore point.
- C. Identify symptoms, educate end user, and create restore point.
- D. Create restore point, identify symptoms, and quarantine infected system

**Answer: A**

**NEW QUESTION 291**

A user needs to shrink the partition size of a hard drive encrypted with BitLocker. Which of the following is the BEST option to modify the size of the partition?

- A. Credential Manager

- B. Computer Management
- C. Device Manager
- D. TPM Manager

**Answer:** B

**NEW QUESTION 294**

An end user receives an unsolicited and unencrypted email containing a co-worker's birth date and social security number. The end user should immediately contact the IT department and report a violation of which of the following policies?

- A. DRM
- B. EULA
- C. IRP
- D. PII

**Answer:** D

**NEW QUESTION 299**

To prevent electrical damage to a PC while working on it, which of the following should be disconnected before work begins?

- A. Power cable
- B. Video cable
- C. USB cable
- D. Serial cable

**Answer:** A

**NEW QUESTION 300**

A technician is noticing extremely slow performance on a computer and would like to see what application is consuming resources. Which of the following tools should the technician use to view the system performance?

- A. msconfig
- B. Task Manager
- C. Event Viewer
- D. netmon

**Answer:** B

**NEW QUESTION 302**

A user tries to login and receives the error message "The User Profile Service failed to login. User Profile cannot be loaded." Which of the following should be the FIRST method to troubleshoot the issue?

- A. Use Automated System Recovery
- B. Boot PC into Safe Mode
- C. Use System File Checker
- D. Perform hardware diagnostics

**Answer:** B

**NEW QUESTION 307**

You need to configure your mobile device to send and receive electronic messages from your company. Your mobile device must be able to truly synchronize the message state with your desktop, so that when a message is read on your desktop, it is marked as read on your mobile device. These are the proper parameters:

- Email address: tech@techies.com
- Password: P@\$\$w0rd
- Pop.techies.com Port: 110 Security: None
- IMAP.techies.com Port: 993 Security: SSL
- smtp.techies.com Port: 465 Security: TLS
- Company SSID: Techies
- Security: WPA2
- Passphrase: P@\$\$w0rd
- SSID is not broadcasted

Instructions: You are not authorized to use the Company's WLAN. The outgoing server does not require login credentials. When you have completed the simulation, please select the done button to submit your answer.

### Configure Mobile Device

Instructions: Configure the settings to send and receive electronic messages from the company.

### Configure Mobile Device

Instructions: Configure the settings to send and receive electronic messages from the company.

**Answer:**

**Explanation:** Since we are instructed to not use the company's WLAN we only need to worry about the email settings and ignore the WiFi and Networks tab. On the MAIL tab enter information as shown below:

Macintosh HD:Users:danielkeller:Desktop:Screen Shot 2015-07-31 at 7.23.48 AM.png That should be all that is needed.

**NEW QUESTION 309**

A user wants to be able to access email from all devices. Which of the following formats should be used to allow this synchronization?

- A. SMTP
- B. iCal
- C. POP3
- D. IMAP

**Answer: D**

**NEW QUESTION 312**

A computer was recently infected by malware after a flash drive was plugged in. The user, Ann, indicates she never opened any files or folders from the flash drive. A technician needs to prevent this from occurring in the future. Which of the following would accomplish this?

- A. BitLocker To Go
- B. Set strong passwords
- C. Disable usermin
- D. Disable AutoRun

**Answer: D**

**NEW QUESTION 313**

A user has changed the MAC address of a laptop to gain access to a network. This is an instance of:

- A. spoofing
- B. brute force
- C. man-in-the-middle
- D. a botnet

**Answer: A**

**NEW QUESTION 316**

To implement additional security on a small office wireless network, the administrator disables the DHCP server on the wireless router. To ensure traffic from specific network interfaces is able to traverse the router, which of the following should be used to limit traffic?

- A. DHCP reservations
- B. SSID broadcast deactivation
- C. MAC filtering
- D. Two-factor authentication

**Answer: A**

**NEW QUESTION 317**

A user's computer has detected a S.M.A.R.T error. Which of the following should the user run to diagnose the issue?

- A. Scheduled disk maintenance
- B. System Restore utility
- C. Disk maintenance utilities
- D. Driver/firmware updates

**Answer: D**

**Explanation:**

Reference

**NEW QUESTION 320**

A PC technician is configuring IP addresses on a Windows system that has multiple NICs. Which of the following commands would show the IP addresses configured on each network interface?

- A. netconfig
- B. ifconfig
- C. ipconfig
- D. netstat

**Answer: C**

**NEW QUESTION 324**

A user is having difficulty with a recently installed application in Windows 7 and needs to make changes to a configuration file. A technician instructs the user to navigate to the application data to make the changes, but the user is unable to locate it. Which of the following should the technician instruct the user to do to find the appropriate folder? (Choose two.)

- A. Type %Windir% in the Windows Explorer bar
- B. Toggle the hidden system files option
- C. Make the user a local admin on the PC
- D. Type %Appdata% in the Windows Explorer bar
- E. Reinstall the application using the recommended settings
- F. Change the password and disable the local guest account

**Answer:** BD

#### NEW QUESTION 327

A user is trying to connect to a new access point with a laptop. The laptop is already able to connect to older access points. The user can see the SSID, but the new access point will not allow the user to connect. The user verifies the correct password is being used. Recently issued devices are able to connect to the new access point. Which of the following is the BEST way to restore this situation?

- A. Enable DHCP on the wireless network
- B. Disable the firewall on the laptop
- C. Upgrade the radio firmware
- D. Clear the DNS cache on the laptop

**Answer:** D

#### NEW QUESTION 332

The digitizer on a user's smartphone intermittently stops working. Which of the following is MOST likely the issue?

- A. Screen orientation
- B. Software update
- C. Screen brightness
- D. Calibration

**Answer:** B

#### NEW QUESTION 335

Which of the following are only available in Windows Professional versions but not Windows Standard versions? (Choose two.)

- A. Remote Desktop
- B. Join a domain
- C. Secure network connections
- D. Remote access capability
- E. Encryption file service
- F. Group Policy Editor

**Answer:** AF

#### NEW QUESTION 338

Which of the following are examples of possession authentication? (Choose three.)

- A. Key fob
- B. RFID badge
- C. Passphrase
- D. PIN
- E. Passwords
- F. Smartphone
- G. Fingerprint reader

**Answer:** ABF

#### NEW QUESTION 339

A technician starts hard drive transfers in a SOHO that will take up to 16 hours to complete. Immediately after starting the transfers, the technician gets warning of a hurricane that will occur overnight. Which of the following is the BEST action to complete before leaving the office?

- A. Turn off the monitors and printers so they do not overheat
- B. Unplug the computers, but keep the hard drive transfer running
- C. Call the power company to turn off any power coming to the office
- D. Ensure the surge suppressors and devices are unplugged from the power sockets

**Answer:** D

#### NEW QUESTION 342

A technician at a corporation receives an instant message from a user who states the new department shared drive that was given through managed settings is missing from the user's PC. Which of the following tools should the technician use to BEST troubleshoot the missing shared drive?

- A. chmod
- B. ipconfig
- C. msconfig
- D. nslookup
- E. gpresult

**Answer:** A

**NEW QUESTION 345**

A customer has started a cloud initiative and would like to make the log-in process to a different application easier for users. The customer has also requested the login process initiate from the same portal. As a technician, which of the following tools will be the BEST solution?

- A. MFA
- B. SSO
- C. RDP
- D. LDAP

**Answer:** B

**NEW QUESTION 346**

A user wants to connect a Windows notebook computer to an external desktop monitor, keyboard, and mouse. However, each time the user closes the notebook lid, the computer shuts down automatically. Which of the following options in the Power Settings menu should the technician select to prevent the automatic shutdown?

- A. Do nothing
- B. Sleep
- C. Hibernate
- D. Shut down

**Answer:** A

**NEW QUESTION 348**

An employee installed a new application on a shared Windows 10 PC. The next day, it becomes the employee who installed the application is the only one who has access to the application. Which of the following types of user accounts does the employee MOST likely have?

- A. Administrator
- B. Guest
- C. Super user
- D. Standard user
- E. Limited user

**Answer:** A

**NEW QUESTION 353**

A technician has received new computers to upgrade the marketing department on a large company. The old computers are to be refreshed and donated as part of company policy. Data contained on the drives needs to be inaccessible prior to donation. Which of the following methods BEST achieves this goal?

- A. Single drive wipe
- B. Degaussing
- C. Low-level format
- D. Multipass overwrite

**Answer:** D

**NEW QUESTION 357**

In Windows 8.1, \\E\$ is an example of which of the following types of share?

- A. EFS
- B. Administrative
- C. Local
- D. NAS

**Answer:** B

**NEW QUESTION 358**

A technician has contacted a vendor, informing them they need to RMA a faulty memory stick. Which of the following should the technician use to BEST protect this component from further damage during shipment?

- A. Antistatic bags
- B. Plastic box
- C. Cardboard box
- D. Bubble wrap
- E. Padded envelope

**Answer:** B

**NEW QUESTION 359**

A company has drivers with PII and other sensitive information on them. There are several drives that need to be disposed of in a short time due to federal regulations, so a technician hires a media destruction company to perform the work. Which of the following should be requested from the company?

- A. Copy of the contract for the completed work

- B. Certificate for a Certificate Authority
- C. Certificate of destruction
- D. Receipt of payment for work completed

**Answer:** C

#### NEW QUESTION 360

Which of the following statements is true regarding the differences between a 32-bit and 64-bit OS?

- A. A 32-bit version of the OS will not run on 64-bit hardware, but a 64-bit OS will run on 32-bit hardware.
- B. A 32-bit version of the OS requires twice the number of CPU clock cycles to write the same amount of data as a 64-bit OS.
- C. A 64-bit version of the OS will address memory in eight octets.
- D. A 64-bit version of the OS will write data to disk in block sizes of eight octets

**Answer:** C

#### NEW QUESTION 361

A technician must remove data from the human resources computers. The technician plans to reuse the drives in the computers. Which of the following data destruction methods should the technician perform to ensure the data is removed completely?

- A. Degaussing
- B. Standard format
- C. Overwrite
- D. Low-level format

**Answer:** D

#### NEW QUESTION 366

A technician is working at a help desk firm and receives a call from a user who has experienced repeated BSODs. The technician is scheduled to take a break just after the call comes in. Which of the following is the BEST choice for the technician to make?

- A. Politely ask the user to call back
- B. Ask another technician to take the call
- C. Troubleshoot the issue for the user
- D. Input the issue as a ticket and escalate to Tier 2
- E. Put the user on hold and troubleshoot after the scheduled break

**Answer:** B

#### NEW QUESTION 368

A novice user is trying to change the password on a Linux system. The user is attempting to use command line functions. Which of the following commands should be used?

- A. passwd
- B. pwd
- C. chown
- D. chmod

**Answer:** A

#### NEW QUESTION 373

When a user browses to a favorite website on a Windows laptop, a different website opens. A technician installs an additional web browser, but it also opens to the same unfamiliar site. The technician resets the web browser settings back to default, but the issue persists. Which of the following troubleshooting steps should the technician complete NEXT?

- A. Change the browser's home page
- B. Check the Windows host file
- C. Update the default web browser
- D. Restore Windows to a previous date

**Answer:** B

#### NEW QUESTION 375

A small business has an open wireless network so vendors can connect to the network without logging in. The business owners are concerned that a nearby company is connecting and using the wireless connection without permission. If the small business requires that the network remain open, which of the following configuration settings should be changed to address these concerns?

- A. Default SSID
- B. MAC filtering
- C. Power levels
- D. Content filtering
- E. Firewall

**Answer:** E

#### NEW QUESTION 379

The general manager installed a popular archive utility. Antivirus software flagged the software because it was also exhibiting malicious behavior. This is an example of which of the following?

- A. Rootkit
- B. Trojan
- C. Spyware
- D. Worm

**Answer: B**

#### NEW QUESTION 381

After completing a fresh Windows 7 installation for a customer, a technician wants to ensure the OS files are hidden and protected from accidental deletion or alteration. Which of the following locations should the technician view to make this change?

- A. Control Panel – folder options
- B. Insert Windows disc – i386 folder
- C. Start menu – run - REGEDIT
- D. Right-click desktop - view

**Answer: A**

#### NEW QUESTION 385

A user has become a victim of data harvesting. The user wants to know more about the potential for mobile device application security issues. Which of the following settings should a technician advise the user to change on the user's mobile device? (Select three.)

- A. Location tracking
- B. Camera activation
- C. Data transmission limit
- D. System lockouts
- E. Developer options
- F. Accessibility
- G. Synchronization
- H. Storage

**Answer: AFH**

#### NEW QUESTION 387

A coworker asks a technician for help understanding an email request while the technician is on a call assisting a user. Which of the following is the BEST response the technician can give the coworker?

- A. Inform the coworker help will be given when the call is over
- B. Multitask and assist the coworker while on the call
- C. Politely ask if the user minds being placed on hold
- D. Refer the coworker to a supervisor

**Answer: A**

#### NEW QUESTION 388

A technician is upgrading the memory on a laptop in the field. The technician has misplaced the ESD strap. Which of the following should the technician do?

- A. Return to the shop and obtain a replacement strap
- B. Conduct the upgrade using ESD bags as mitts
- C. Employ effective self-grounding techniques
- D. Improvise an ESD strap with a length of copper wire

**Answer: C**

#### NEW QUESTION 391

A technician arrives on site to find that two users who have the same model of smartphone are having the same issue with a specific application. Whenever they attempt to launch the application, it fails and gives an error message. Which of the following should the technician do NEXT?

- A. Reinstall the application
- B. Roll back the application to the earlier version
- C. Clear the application cache
- D. Update the OS of the smartphones

**Answer: D**

#### NEW QUESTION 394

The office of admissions at a university has requested that all staff desktops be replaced with laptops. The staff members frequently go off-site for recruitment purposes and handle sensitive information. The technician is concerned about data leaks if a laptop is stolen. Which of the following is the BEST practice to use in this scenario?

- A. Cable locks
- B. Biometric security
- C. Data encryption
- D. Login time restriction

E. LoJack

**Answer: C**

**NEW QUESTION 396**

A technician was told that 50 new computers were delivered. The company's standard Windows image needs to be installed on all of them. Which of the following would be the MOST efficient way to get the image on all 50 computers?

- A. Multiboot installation
- B. Repair installation
- C. Unattended installation
- D. Clean installation

**Answer: C**

**NEW QUESTION 399**

A technician is running a Windows Update on a Windows 7 PC. The process usually takes a few minutes before reporting if there are updates, but this time it has taken 30 minutes with no change. Which of the following should the technician do?

- A. Use the Microsoft Windows Update Troubleshooter
- B. Delete all of the files and folders in the Software Distribution folder
- C. Reboot to safe mode and run Windows Update
- D. Run the System Update Readiness Tool

**Answer: A**

**NEW QUESTION 403**

A technician has been tasked with ensuring all of the company software vulnerabilities are fixed. Which of the following should be used to complete this task?

- A. Scheduled reboots
- B. Regular backups
- C. Task scheduler
- D. Patch management

**Answer: D**

**NEW QUESTION 405**

A systems administrator wants to test a tool to enhance productivity but does not want to run it in the live production environment. The systems administrator has a powerful PC running Windows 8.1. Which of the following should the systems administrator set up to test the tool on the PC without changing the base configuration?

- A. Native Windows
- B. Virtualization
- C. Emulation
- D. Safe mode

**Answer: C**

**NEW QUESTION 406**

An employee was arrested after it was determined that an office computer was used for illegal activity that damaged the company. Which of the following MUST be documented on the employee's computer to ensure the evidence is admissible on court?

- A. Software inventory
- B. Personality identifiable information
- C. Security best practices
- D. Chain of custody

**Answer: D**

**Explanation:** Reference [https://epic.org/security/computer\\_search\\_guidelines.txt](https://epic.org/security/computer_search_guidelines.txt)

**NEW QUESTION 409**

A user's smartphone is getting a very weak signal from the service provider. One day the user notices the phone has full bars and the signal strength has inexplicably increased. Which of the following tools should be used to verify the user is connecting to a legitimate signal from the phone service provider?

- A. WiFi analyzer
- B. Cell tower analyzer
- C. Spectrum analyzer
- D. Packet analyzer

**Answer: B**

**NEW QUESTION 411**

Which of the following is the MAIN reason that corporate policies protect access to PII?

- A. To protect proprietary company data
- B. To reduce the likelihood of identity theft
- C. To maintain the integrity of knowledge management systems

**Answer: B**

#### NEW QUESTION 413

A SOHO customer has recently experienced a major hurricane. The customer had no backups and has lost all data and hardware associated with the company. The customer calls a contractor to assist in the rebuilding process and needs suggestions on the best way to prevent this from happening again. Which of the following recommendations should the contractor give to the customer? (Choose two.)

- A. Backup testing
- B. Cloud storage
- C. Local storage backups
- D. Data recovery
- E. Hot site
- F. Waterproof devices

**Answer: BE**

#### NEW QUESTION 414

A technician has a single computer that continually shuts down every evening for no apparent reason and must be turned on each day. The technician has verified hibernate and sleep settings do not exist on the computer and the computer power is not the problem. Which of the following would the technician use to troubleshoot the root cause of the random shut downs? (Choose two.)

- A. System Restore
- B. Event Viewer
- C. Safe mode
- D. System file checker
- E. Logs
- F. MSConfig

**Answer: BE**

#### NEW QUESTION 418

A home server rack is being installed in the computer room and is outfitted with a power distribution block. Which of the following safety precautions is required?

- A. Cable management
- B. Electrostatic discharge mat
- C. Equipment grounding
- D. Uninterruptible power supply

**Answer: C**

#### NEW QUESTION 419

A technician for an enterprise company is determining the best method to keep the organization's Windows PCs up to date with OS security patches. Which of the following options would be MOST appropriate to deploy?

- A. Invest in a server solution to deploy virtual hosted desktops for all users
- B. Enable Windows updates to be installed manually by users
- C. Validate OS security patches in a test environment before pushing them to user machines
- D. Outsource OS security patch management to a third-party solution provider

**Answer: C**

#### NEW QUESTION 421

A technician needs to edit a protected .dll file but cannot find the file in the System32 directory. Which of the following Control Panel utilities should the technician use?

- A. System
- B. Display
- C. Folder Options
- D. Indexing Options

**Answer: C**

#### NEW QUESTION 424

A client wants a technician to create a PC naming convention that will make the client's PCs easier to track and identify while in use. Which of the following naming convention formats should the technician follow?

- A. Domain name, location, IP address
- B. Domain name, location, asset ID
- C. Asset ID, MAC address
- D. Location, RFID

Answer: C

#### NEW QUESTION 425

A user who is running Windows XP calls a technician to upgrade the computer to a newer Windows OS. The user states the computer has only 1GB of RAM and 16GB of hard drive space with a 1.7GHz processor. Which of the following OSs should the technician recommend to ensure the BEST performance on this computer?

- A. Windows 7
- B. Windows 8
- C. Windows 8.1
- D. Windows 10

Answer: A

#### NEW QUESTION 427

Which of the following combinations provides the STRONGEST authentication security?

- A. Hardware token
- B. Username and password
- C. Smart card with PIN
- D. Voice then fingerprint recognition

Answer: D

#### NEW QUESTION 430

A user reports that a cell phone application is loading slowly and not functioning properly. Which of the following should a technician do FIRST to remedy this issue?

- A. Remove and reinstall the application
- B. Hard reset the cell phone
- C. Reconnect the wireless network connection
- D. Close all running applications

Answer: B

#### NEW QUESTION 432

A user has reported that when a document is being edited a pop-up appears and locks the workstation. The pop-up states that federal authorities have detected illegal copyrighted material on the workstation. The technician removes the malware and creates a restore point. Which of the following should the technician perform NEXT before closing the report?

- A. Contact the local computer emergency response team
- B. Quarantine the workstation for possible infections
- C. Train the user on safe Internet browsing
- D. Restore to an earlier state and disable System Restore

Answer: C

#### NEW QUESTION 436

Users are reporting web browsers are not working. A technician confirms that the end users can navigate to websites using the site's IP address. Which of the following is MOST likely causing this issue?

- A. Proxy server
- B. DHCP server
- C. DNS server
- D. SMTP server

Answer: C

#### NEW QUESTION 438

A technician performs an in-place upgrade from Windows 7 to 8.1. After the upgrade is complete, a user reports that a frequently used file will not open. Instead, the user is prompted to search the Windows Store for an appropriate program to open the file. Which of the following should the technician do FIRST?

- A. Install the most recent Windows updates.
- B. Verify the USMT worked properly.
- C. Reconfigure the default program for the file type.
- D. Perform System Restore.
- E. Reinstall the program that is usually used to open the file

Answer: A

#### NEW QUESTION 443

Multiple users have reported latency issues. After troubleshooting the issue, the technician finds that bandwidth is saturated by non-corporate applications. Which of the following should resolve this issue?

- A. Assign static IP addresses

- B. Enable MAC filtering
- C. Enable content filtering
- D. Configure an IPS

**Answer:** C

**NEW QUESTION 446**

A technician wants to change the security level for a set of internal websites accessed frequently by a user. Which of the following Control Panel utilities would allow the technician to complete this task?

- A. Windows Firewall
- B. Credential Manager
- C. Network and Sharing Center
- D. Internet Options
- E. Homegroup

**Answer:** A

**NEW QUESTION 449**

A technician is performing an OS upgrade and is provided with an ISO installation file. The customer's computer is running Windows 8. The computer does not have an internal optical drive. Which of the following boot methods would be the BEST to perform the upgrade with the latest amount of effort?

- A. USB
- B. SSD
- C. PXE
- D. CDR

**Answer:** A

**NEW QUESTION 451**

When synchronizing a cell phone to an Exchange Email Server, which of the following are MOST likely to be synchronized? (Choose two.)

- A. Photos
- B. Passwords
- C. Bookmarks
- D. Notes
- E. Music
- F. Calendar

**Answer:** DF

**NEW QUESTION 456**

A user reports the screen on a mobile device frequently dims even when the device settings are not being changed. Which of the following is MOST likely the cause?

- A. Faulty backlight
- B. High contrast mode
- C. Auto-brightness
- D. Power saving mode
