- A. Advanced planning and scheduling
- B. Aggregate planning
- C. Aggregate forecast
- D. Distribution Requirements Planning

Answer: A

NEW QUESTION 22

- (Topic 3)

The ratio of actual output to standard output is defined as:

- A. demonstrated capacity.
- B. rated capacity.
- C. utilization.
- D. efficiency.

Answer: D

NEW QUESTION 24

- (Topic 3)

Which of the following plans is translated into synchronized functional plans through the sales and operations planning process?

- A. Strategic
- B. Marketing
- C. Business
- D. Financial

Answer: C

NEW QUESTION 28

- (Topic 3)

Which of the following techniques is best for monitoring loads and capacities?

- A. Exponential smoothing
- B. Discrete lot sizing
- C. Input/output control
- D. Rough-cut capacity planning

Answer: C

NEW QUESTION 29

- (Topic 3)

Which of the following considerations should be included in product design?

- A. Manufacturing strategy
- B. Product pricing
- C. Environmental sensitivity
- D. Target markets

Answer: C

NEW QUESTION 30

- (Topic 3)
