

Exam Questions HPE2-W02

Selling Aruba Products and Solutions

<https://www.2passeasy.com/dumps/HPE2-W02/>

NEW QUESTION 1

Your customer uses Aruba Central and ClearPass in their Aruba-powered campus network. The company is rapidly deploying branches and the CIO wants to ensure enterprise scalability for these networks without having to spend extra money on management. Which aspect of the Aruba Branch Gateway should you emphasize for this customer?

- A. smart rate ports for future-proofing
- B. routing through the data center for better security
- C. machine learning and AI-powered security assurance
- D. single policy enforcement point at branches

Answer: D

NEW QUESTION 2

A customer needs a network infrastructure upgrade.

Which characteristic should you use as the primary deciding factor between proposing HPE OfficeConnect or Aruba solutions?

- A. whether the customer requires 802.11ac
- B. the company vertical
- C. the company size and number of users
- D. whether the customer requires wired or wireless access

Answer: C

NEW QUESTION 3

What is the Aruba Experience Edge Platform?

- A. It is an experience-driven portal that provides access to a partnership ecosystem with Aruba technology partners.
- B. It complies the suite of products in the Aruba SD-WAN solution, including edge gateways and centralized gateways.
- C. It is analytics-driven security framework that includes Aruba IntroSpect, RF Protect, and ClearPass.
- D. It comprises the Aruba infrastructure, software, and partnerships that work together to improve user network experiences.

Answer: D

NEW QUESTION 4

A customer has indicated that IT staff members spend a lot of their time troubleshooting. The architect plans to propose Aruba 8400 switches at the core. What feature of this switch can the architect emphasize to address the customer issue?

- A. Network Analytics Engine (NAE)
- B. Smart Rate ports
- C. Dynamic segmentation
- D. Virtual Switching Extension (VSX)

Answer: A

NEW QUESTION 5

For which customer are HPE Office Connect OC20 APs the right solution?

- A. a university that needs to provide home wireless services and VPN access for faculty
- B. a medium business with 570 employees that needs a simple cloud-managed wireless solution
- C. a small business with 46 employees and the need for simple plug-and-play Wi-Fi
- D. a retailer that needs to support a large number of small branch sites

Answer: C

NEW QUESTION 6

A customer currently has Cisco networking equipment, but you have made progress in convincing the customer that an Aruba solution will better suit their needs for their upgrade. However, the customer still has some reservations about changing vendors and plans to migrate gradually.

What is one selling point of Aruba solutions for this customer?

- A. Aruba AirWave is multi-vendor, so it can manage both legacy Cisco products and Aruba products together.
- B. An Aruba Mobility Master (MM) can discover and monitor third-party products such as the legacy Cisco products.
- C. Aruba controllers support dynamic segmentation, which enables them to integrate with switches such as Cisco switches.
- D. Aruba Foundation Care offers financial services to make it more economically feasible for the customer to migrate to Aruba.

Answer: A

NEW QUESTION 7

You have proposed an Aruba Central solution for a customer that requires high availability for management. What benefit of Central should you explain?

- A. Central can be deployed as a primary appliance and standby appliance with no additional licensing costs.
- B. Central supports integration with third-party backup solutions such as Veeam.
- C. Central can switch to a local management console if the connection to the cloud is lost.
- D. Central is automatically deployed as a clustered solution in the customer also has a Mobility Master (MM).

Answer:

C

NEW QUESTION 8

Your customer emphasizes the need to simplify network operations.

What is one reason for recommending Aruba 5400R zl2 switches for the customer's campus network?

- A. Virtual Switching Framework (VSF) allows customers to combine 5400R switches into a single virtual switch which simplifies management tasks and provides more resilient connectivity.
- B. Traditional stacking enables network administrators to manage up to 10 5400R switches from a single GUI.
- C. Backplane stacking enables multiple 5400R switches to function as a single logical switch, using dedicated modules and stacking cables to integrate the switches.
- D. Virtual Switching Extension (VSX) provides redundancy for management modules on the 5400R switches, with seamless failover.

Answer: A

NEW QUESTION 9

What is one way Aruba solutions help healthcare companies support BYOD and BioMed initiatives?

- A. Aruba Meridian regulates patient access and applies access controls that prevent patients from monopolizing bandwidth and interfering with more important traffic.
- B. Aruba Client Match maximizes performance in a dense environment with many different types of devices, enabling staff to communicate and access records more quickly.
- C. Aruba ClearPass automatically downloads software on every patient device to constantly track each asset's location, even if it leaves the premises.
- D. Aruba IntroSpect strictly enforces HIPPA regulations by only making records available to healthcare providers if the patient provides his or her password.

Answer: B

NEW QUESTION 10

A customer requires a highly secure network solution, and you have proposed an Aruba controller-based solution and Aruba switches. What is one security benefit that the controllers provide?

- A. They can detect intrusion attempts based on machine learning (ML).
- B. They can create a baseline of normal wireless device behavior and detect anomalies.
- C. They can provide secure SNMPv3-based management for the Aruba switches.
- D. They can apply role-based firewall policies to wireless and wired traffic.

Answer: D

NEW QUESTION 10

You are pursuing an opportunity to sell an Aruba location-based service solution to a customer. The customer is also considering a Cisco location-based solution. What should you explain to distinguish the Aruba solution?

- A. Aruba beacons fully pair with users' devices for a more complete and effective solution while Cisco beacons do not establish a full pair.
- B. Aruba delivers an already complete mobile application tailored to the customer vertical while Cisco forces customers to create their own applications.
- C. Aruba offers PoE for beacons to make them easier to install and manage while Cisco beacons only support external power supplies.
- D. The Aruba solution can use cost-effective and easy-to-deploy battery-powered beacons or leverage beacons built into existing Aruba Aps while Cisco forces customers to rip and replace existing Aps for location services support.

Answer: D

NEW QUESTION 14

You want to begin qualifying a customer for Aruba IntroSpect. Which topic can you introduce to begin the conversation?

- A. how much insight IT staff have into the root causes behind performance issues
- B. whether the customer uses SEIM and is overwhelmed with alerts
- C. whether the customer has detected rogue Aps in the environment
- D. how the customer would like to define access policies for wireless users

Answer: A

NEW QUESTION 19

Which characteristic could make a Virtual Mobility Controller (VMC), as opposed to a hardware controller, a good solution for a customer?

- A. need for flexibility in moves and changes
- B. desire to remain on pre-8.0 ArubaOS code
- C. need for highest throughput
- D. little communication between server and networking teams

Answer: A

NEW QUESTION 23

What is one challenge that is pushing customers toward SD-WAN solutions?

- A. need to move to exclusive MPLS for branch connections
- B. lack of control over and visibility into WAN traffic
- C. insufficient security expertise in IT staff at branches

D. too few products and solutions at the branches across their WAN

Answer: A

NEW QUESTION 24

Which of Aruba's guiding principles lets customers know that Aruba will prioritize their needs at every stage?

- A. A “better than cloud” approach helps customers move away from expensive cloud to a network that was specifically designed for an on-prem deployment.
- B. A “wired-first” approach lets customers know that Aruba is prepared for where the market is headed, due to the inherent insecurity of wireless devices.
- C. An “IT knows best” approach means that Aruba emphasizes that it has the deep and mature technologies that customers need and that those technologies come with complexities.
- D. A “customer first, customer last” approach means Aruba is committed to customer success at every stage, from product innovation and development to sales and support.

Answer: D

NEW QUESTION 26

Which challenge does the increase of digital learning environments present to primary schools?

- A. Schools are not deploying enough wired and wireless IoT devices for the digital learning environments to succeed.
- B. Schools often have too large of an IT department, which can result in a network that is too mismanaged and siloed to meet performance requirements.
- C. Schools lack the budget to obtain a reliable wired and wireless network that can handle the increase in devices and connectivity needs.
- D. Schools have focused primarily on cloud solutions for the past decade, so switching back to an on-prem infrastructure seems daunting.

Answer: C

NEW QUESTION 31

What is a primary difference between Aruba 310 and Aruba 340 Series APs?

- A. Aruba 340s support higher density deployments than Aruba 310s.
- B. Aruba 340s support outdoor deployments, and Aruba 310s support indoor ones.
- C. Aruba 340s support 802.11ac, and Aruba 310s support 802.11b/g/n only.
- D. Aruba 340s support 802.11ax, and Aruba 310s support 802.11ac.

Answer: A

NEW QUESTION 32

What is an advantage of the Aruba Software Platform? (Select two.)

- A. It makes the underlying infrastructure smarter, helping to deliver contextual experiences for end users and line-of-business teams.
- B. It uses proprietary technologies that prevent third-party integration, providing more sales opportunities for Aruba.
- C. It embeds the ArubaOS-CX Network Analytics Engine (NAE) into all wired and wireless infrastructure to improve security.
- D. It is the industry's first WLAN software platform that offers exclusive cloud deployment so that customers have a single simple choice.
- E. It is programmable, with an API-first design that helps to encourage automation and integration.

Answer: CD

NEW QUESTION 37

What is one reason you should recommend the Aruba 2930F rather than the Aruba 2540 at the access layer?

- A. The customer needs static routing at the access layer, and the Aruba 2540 does not support any routing.
- B. The customer needs Power over Ethernet (PoE+), and the Aruba 2540 does not support this feature.
- C. The customer wants Smart Rate Ports, and the Aruba 2930F offers this feature.
- D. The customer prioritizes scalability, and the Aruba 2930F supports Virtual Switching Framework(VSF).

Answer: D

NEW QUESTION 42

Which challenge is introduced by an increasing number of IoT devices on the network?

- A. As more potentially insecure devices connect from within, traditional perimeter solutions are no longer sufficient.
- B. Because most IoT devices come with built in security, IT staff needs to be trained in those protocols and security software suites.
- C. Devices are proliferating, while IoT deployments remain too immature to offer real business value to enterprises at this time.
- D. Very few IoT devices support wireless and IP technologies, making it difficult to integrate them in the wireless network.

Answer: A

NEW QUESTION 44

You have proposed an Aruba wireless solution to a hospital with very high availability requirements for the wireless network. Which feature of Aruba solutions should you explain provides seamless failover and live upgrades for mobility controllers?

- A. live mobility tracking with Aruba Meridian
- B. connectivity Health in AirWave or Central
- C. clustering with ArubaOS 8.x and above
- D. AirMatch and ClientMatch with Mobility Master (MM)

Answer: C

NEW QUESTION 48

What is one key competitive advantage of Aruba AirWave over Cisco Prime?

- A. Aruba AirWave is cloud based, while Cisco Prime only offers on-premises management.
- B. Aruba AirWave integrates network access control, while Cisco Prime does not.
- C. Cisco Prime only supports Cisco, while Aruba AirWave offers multi-vendor support.
- D. Cisco Prime only offers single-server deployments, while Aruba offers larger deployments.

Answer: C

NEW QUESTION 49

What is one key advantage of Aruba wireless solutions as compared to Cisco Meraki solutions?

- A. Aruba offers cloud subscription-based licensing for all APs while Cisco Meraki requires a significant CAPEX expenditure.
- B. Aruba offers beamforming in APs to improve wireless coverage while Cisco Meraki Aps does not support any such feature.
- C. Aruba offers integration with an extensive ecosystem while Cisco Meraki offers little third-party integration.
- D. Aruba offers one simple choice for management while Cisco Meraki has a confusing array of management options.

Answer: D

NEW QUESTION 51

What is one key way that Aruba IntroSpect enhances security for a customer network?

- A. It enforces role-based policies to ensure the right users connect to the right resources.
- B. It provides an enhanced guest portal with user identification and tracking features.
- C. It inspects all traffic and ensures that sensitive data is securely encrypted.
- D. It ties security alerts to the user or device identify associated with the alert.

Answer: C

NEW QUESTION 56

A customer has complained about the hidden costs of many networking solutions.

What is one key distinguishing feature that you should explain about ArubaOS switches?

- A. They offer a full feature set without the requirement of software licenses.
- B. They include ArubaOS software for controlling up to eight APs in a small office environment.
- C. They come with a lifetime warranty that includes guaranteed onsite repair within 6 hours.
- D. They can be managed by Aruba Central, which is a free downloadable management tool.

Answer: A
